

## ***The Islands of The Bahamas***

Over 100,000 square miles of ocean. 25 island/island groups. More than 650 cays. 750 miles from one end to the other. Diversity seems to be the word. Diving the Bahamas is an experience that can't be had anywhere else. You can dive with sharks and dolphins, see big animals, lion fish transplants, reefs and reef life, and wrecks. All levels of diving are here, as well as all levels of shopping, dining, above water activities, and relaxing. You can go to the main areas of Nassau, Bimini, or Freeport or you can experience the 'real' Bahamas in the Exumas, Cat Island, or Andros. You will not be disappointed!

Check with our travel department for detailed information regarding the accommodations and flights. We are offering Open Water Certification, Advanced Open Water, and Specialty Courses.
