

## Belize

Rainforests, waterfalls, pictograph decorated caves, and classic Maya ruins with a British Commonwealth disposition. Underwater Belize offers the Western Hemisphere's largest barrier reef right off the coast, Ambergris Caye, the atolls of Turneffe and Glovers islands. Also Belize is the location of the Blue Hole, an ancient sinkhole that begins shallow and sinks to more than 400ft.

You may even see a whale shark!

Check with our travel department for detailed information regarding the accommodations and flights. We are offering Open Water Certification, Advanced Open Water, and Specialty Courses.
