Bora Bora

Tahiti is a mythical place that symbolizes paradise on earth. Nature has been most generous to Tahiti by providing beautiful lagoons and extraordinary landscapes. The well preserved lagoons and virgin white sand outdo in beauty the blue skies above. The main island with its volcanic mountain top, surrounded by an ocean of many hues, has become over thousands of years the harbor of an extraordinary underwater fauna. The crystal clear water studded with islets ("Motu" in Tahitian) has created a nearly "supernatural" scenery called "the lagoon of Bora Bora". You will discover the wonderful under-water world of Bora Bora, mindfully taking into account your diving experience. Do not miss the encounter with the manta rays, swimming all year long in the warm waters of the "Manta Rays' Corridor" spot. Join us on this exciting diving adventure and live a memorable adventure during your stay in Bora Bora.
