“August 1, 2005

GREAT NEWS! We have established permanent moorings on six shipwrecks in the Ohio waters of Lake Erie. The moored Wrecks are the tug *Admiral*, the schooner barge *Dundee*, the barge and crane *The Craftsman*, the steamer *Queen of the West*, the sidewheel steamer *Morning Star*, and the sand sucker *Sand Merchant*.

Dive moorings provide greater safety and ease of access to these dive sites. Shops should benefit by having shipwreck easily accessible and clubs will benefit for safe moorings and easy charter access. Enclosed is a brochure outlining the locations and how to use the moorings. (*This information is located at:*

http://www.ohiomast.org/Webpages/MAST_Buoy.html)

Please remember, the moorings are not designed to be attached directly to your vessel. Run a line from your vessel through the mooring yoke and back to your vessel. This provides additional scope and makes releasing from the mooring easy. As you use the moorings, we ask that you let us know about your experience. Send an email to Moorings@ohiomast.org and let us know about your dive.

1. condition of the mooring
2. visibility
3. were there other dive vessels on the site
4. was the mooring easy to use
5. what suggestions do you have

We anticipate taking the moorings down on or shortly after October 1 and putting them back up on or before June 1 each year. All of this is made possible by funding from The Ohio Lake Erie Commission and Ohio Coastal Management Program of ODNR. Continued operations will require ongoing funding. Should your club, charter, or dive shop wish to contribute to the ongoing maintenance of the buoy program, please send your check to: **Maritime Archaeological Survey Team, Inc., P.O. Box 93352 Cleveland, OH 44101-5352.**

Sincerely, Board of Directors

New Partners & Additions to our Staff...**Ron Westmoreland**

Ron is president of Safety Service Divers Inc. this is a corporation that prides it's self in providing SCUBA training to both the public and professional dive teams. He trains the best divers not the most. The following is his bio.

TRAINING AND EXPERIENCE

1979 - Joined U.S. Navy as Hull Maintenance Technician
His duties were Ship board firefighting, helicopter crash and rescue team.

1980 - Became certified as a NAUI open water diver
Dove extensively in Oregon and Washington State
1982- Moved to Houston, Texas Attended Commercial Diving School at San Jacinto College.

He did surface supplied air diving and underwater welding and cutting.

Ron used helmets such as Super light 17, Miller 400, KMB 18 and many others. He also has experience in underwater rigging.

1983 to 1987- Ron was hired at Portable Marine Systems as a welder/tender.

When he left he was barge captain in charge of the 600 ton derrick crane "Mr. Two Hooks." He then became a supervisor for all outside diving operations done for PMS and was also Lead diver for all dive operations done in house for PMS. Ron became a heavy lifting expert, with his heaviest lift being 450 tons and his heaviest move being 1600 tons. Ron had many other duties then that are too many to list.

1985- He became certified as an EMT.

1987 - Ron moved to Ohio and worked for a private ambulance company.

1989 - He was certified as a Paramedic.

1992 - Ron was hired as a fulltime firefighter/paramedic by City of Bay Village Ohio.

1985 - He was certified as a PADI diving instructor and also became dive team trainer for Bay Village and Amherst fire departments.

1986 - Ron formed Safety Service Divers Inc. and began training local police and fire dive teams. Then he was asked to join Emergency Response Diving International, a great training organization that puts safety of the divers first. Ron has over 10 years training rescue personnel with no injuries.

Aqua Immersion will be actively pursuing the training of Public Safety Diving in the Midwest.
